Jet Girls’ Uplifting Business

“Service equals personal assistance, walking you thru, there, for your choices”. Lisa Green, chairman of Jet Girl believes this is what we desire.

“Jet Girl has no fees. I chose this for a reason you pay a fee you become select, in a class”. “The charter industry which is under General Aviation has many types of upfront fees: fractional, clubs, membership, jet cards, & brokers, explained Jet Girl as she likes to be addressed”.

Jet Girl is pure *Charter*; one is billed for the Jet, car services, meals, all other requests (those unfamiliar it is very expensive, fewer have these means); there are hour minimums, times 3, per day; fees for landing, passengers, hanger, taxes etc., estimated DC to New York \$11,107 round trip same day.

Weekly Jet Travel® Monday thru Friday offers same day travel; car service, dining on jet, personal coaching & hand massages. Arrive home for your family.

Charter Share® to any destination with *other* travelers allows you to share the charter jet expense with others who wish to travel via jet and to the same locale. Jet Girl currently offers Friday to Sunday travels and Thursday to Tuesday travels such as Hawaii, Europe, Islands, & Yacht. (There are always others posted on the web site under charter).

“This was created with everyone in mind, to have the opportunity to Jet Travel as a choice. I have coined “Jet Class” 101, car service to jet, board jet, eat optional, arrive happy and at peace, car service to destination; and “Flying Jet Class” is more than first class in price and services. Win Win expresses Jet Girl, “I do see myself as a hero to go where no one has providing this & other services.

“I see Jet Girl as a invitation to invite you to fly private jets weekly”. Brilliance is here; I see “Flying Jet Class” welcoming everyone to Jet Girl Private International Jet Travel which is uplifting the industry as well, all travelers. She is uplifting alike a goddess, full of light, oh, dear me, chaps.

We must stay tuned to this “Jet Girl” I say, she has many fascinating ideas and services to tell us of, I dare say, we shall be seeing a lot more of Miss Jet Girl. *Jet Girl is Agent for 135 FAA holders contractors.*
